

## LIST OF TABLES

<b>Table</b>	<b>Page</b>
1. Bull Creek/Bull's Brook Stakeholder Planning Committee (BCPC) meeting schedule .....	4
2. Dominant soil types and attributes in the Bull Creek/Bull's Brook watershed .....	28
3. Percent coverage of hydric soils, hydric inclusion soils, and non-hydric soils by watershed and subwatershed.....	29
4. Hydrologic Soil Groups and their corresponding attributes.....	33
5. Hydrologic Soil Groups including acreage and percent of watershed and subwatershed .....	35
6. Major jurisdictional bodies in the Bull Creek/Bull's Brook watershed.....	37
7. NIPC's 2000 data and 2030 forecast data for the Bull Creek/Bull's Brook watershed .	41
8. 2004 land use updated from 1995 NIPC/2003 ILM land use .....	49
9. 2004 and 20-year projected land use, including percent change for each category, in the Bull Creek/Bull's Brook watershed .....	50
10. Impervious categories and descriptions based on the Impervious Cover Model .....	56
11. Summary of EPA's TR55 land uses and associated imperviousness .....	55
12. Impervious categories and descriptions based on the Impervious Cover Model .....	56
13. Existing, proposed, and unknown status trails and greenways.....	59
14. Proposed new roads and road improvement projects .....	61
15. Highway runoff constituents and their primary sources.....	64
16. List of T&E species and natural communities identified in the Bull Creek/Bull's Brook watershed .....	68
17. Summary of open and partially open parcels for the entire Bull Creek/Bull's Brook watershed .....	75
18. Summary of open and partially open parcels for subwatersheds in the Bull Creek/ Bull's Brook watershed.....	75
19. Summary of ownership type for open and partially open parcels.....	77

20. Public versus private ownership of open and partially open parcels .....	79
21. Protected versus unprotected status of open and partially open parcels .....	81
22. SMUs and acreage organized by subwatershed in the Bull Creek/Bull's Brook watershed .....	92
23. Hydraulic structures categorized by stream branch in the Bull Creek/Bull's Brook watershed .....	104
24. Problematic hydraulic structure ID numbers, type, and problem.....	105
25. Discharge points into Bull Creek North, Bull Creek South, and Bull's Brook .....	106
26. Problematic discharge point ID numbers, type, and problem.....	106
27. Secchi depths, phosphorus concentrations, and TSI values/categories for assessed lakes in the Bull Creek/Brook watershed .....	114
28. Geometric Mean Concentrations of Pollutants in Stormwater Runoff from Urban Areas.	124
29. List of chemical (H <sub>2</sub> O) and biological (BIO) water quality studies conducted in the Bull Creek/Bull's Brook watershed.....	126
30. High priority hazardous materials sites with open files. ....	131
31. NPDES permitted and proposed discharge to Bull Creek/Bull's Brook watershed.....	132
32. Water quality correlation to Macroinvertebrate Biotic Index (MBI) score.....	133
33. Macroinvertebrate Biotic Index (MBI) and Index of Biotic Integrity (IBI) scores and categories at IDNR and IEPA macroinvertebrate and fish survey sites .....	134
34. Biological Stream Characterization (BSC) criteria for the classification of Illinois streams.....	135
35. ADID wetlands and attributes.....	137
36. Potential wetland restoration sites including acreage and restoration potential based on property vacancy and ownership status.....	143
37. Comparison of old (1981) versus new revised (2006) floodplain.....	146
38. Stormsewershed and acres by subwatershed.....	152
39. Ranking of existing and potential storage locations based on 2-foot depressional storage volume (acre-feet) .....	160

40. Final classification guidelines for borderline SMUs .....	166
41. IEPA 2004 Water Quality Standards and pollutant loading points analysis.....	177
42. Subwatershed analysis of pollutant loading.....	180
43. Pollutants and potential causes and sources .....	183
44. USEPA BMP percent pollutant removal efficiencies .....	188
45. Estimated "Hotspot" SMU pollutant loading changes following BMP implementation.	193
46. List of urban/transitional and agricultural BMPs for reducing pollutant loading .....	195
47. Indicators and targets to meet water quality objectives .....	198
48. Recommended water quality monitoring locations, sampling parties, sampling cycle, and indicators to be tested.....	200
49. Flood Problem Areas identified during LCSMC's Flood Problem Areas Inventory of the Bull Creek/Bull's Brook watershed.....	203
50. Nuisance flood areas identified by AES and others in the Bull Creek/Bull's Brook watershed .....	204
51. Structures by type subject to 100-year flood mapping.....	206
52. Summary of flood protection questionnaires .....	208
53. Criteria used to prioritize parcels for each of the three project goals.....	219
54. Information/Education Program matrix .....	228
55. Bull Creek/Bull's Brook watershed stakeholders/partners.....	231
55-63. Map Series- Programmatic Actions for Goals A-I .....	237-258
64. Site Specific Action Plan recommendations for Fremont Township .....	283
65. Site Specific Action Plan recommendations for Grayslake .....	285
66. Site Specific Action Plan recommendations for Libertyville.....	288
67. Site Specific Action Plan recommendations for Libertyville Township.....	295
68. Site Specific Action Plan recommendations for Mundelein.....	302
69. Site Specific Action Plan recommendations for Warren Township .....	306
